**Jim Logan – Pickleball Professional**

Pickleball is the fastest growing sport in the country, especially among seniors. It is easy to learn, instills camaraderie among players, and provides the enormous benefit of exercise, particularly important as we age. Coming from a tennis background, I am now completely hooked on the sport. With my experience as a teacher/ coach, and athlete, I can help people of all ages and ability learn to enjoy this fabulous activity.

**“Drills and Thrills”**

We all know playing games is fun. That's why we love pickleball. But if you wish to improve your game, the quickest method is targeted drills and practice sessions under supervision. The “Drills and Thrills” sessions will key in on the skills necessary to take your game to the next level. Week by week you will see your game improve. Each session will include 1 hour instruction/drills/practice followed by game play emphasizing what we learned in the practice session. This summer I would like to set up the sessions into 4 week blocks. Each session will build on the previous week's drills.

**"Drills and Thrills" Intermediate Level- July 14 at 11:00-12:30 (Pending registrations) 2.0 – 3.0 players (Minimum of 8 players) Four weeks**

Cost \$40.00 Member: \$60 Non-member

Or drop by and join if space is available, \$12/session Member; \$17 Non-member

The overall goal is to get you to the 3.5 level by focusing on proper technique for all shots, gaining consistency, learning how and when to hit the drop shot, when to advance to the No Volley Zone and when not to, and sound pickleball strategy.

**"Drills and Thrills" Advanced Level – July 14 at 1:00 -2:30 (Pending registrations) 3.5 + players (Minimum of 8 players) Four weeks**

Cost \$40.00 Member: \$60 Non-member

Drop in also available if space available, \$12/session Member; \$17 Non-member

These sessions are for players currently at the 3.5 level and looking to become a high level 3.5 and/or transition to the 4.0 by summer's end.

Proper posture, balance and hitting in front of you is key for consistency. We will emphasize this for all shots and in court movement. Also its time to really concentrate on the soft game, and more soft game – super important to advance in the pickleball world.

Other important skills to emphasize will include transitioning to the NVZ, through drive and drop, or consecutive drop shots. Of course we will practice other important skills as well.
